Charles E. Gilman

## Polyanthus Plants

Shipped anywhere. In bloom from March to July. Out of bloom July to October.

**PASTELS**—Delicate shades of suffused rose, lavender, and orchid.

**YELLOW**S—Deep golden, medium, and lemon.

**RED SHADES**—From cherry to ruby.

**PURPLE**S—Light to royal.

**FLAMES**—Warm and brilliant shades of suffused yellow and red.

**BLUES**—Light, medium, and navy.

**COWICHAN**—A strain with dark velvety flowers on black stalks with very small eyes.

**PINKS**—Everyone loves the Pinks.

3 for \$1.50

6 for \$2.90

Dozen \$5.25

## Acaulis Plants

The Cushion Primrose; each flower on its own stem.

**ROSE AND PINK  
SHADES  
APRICOT SHADES  
WHITES, YELLOWS,  
LAVENDER**

3 for \$1.50

6 for \$2.90

Dozen \$5.25

## Garden Auriculas

These "bear's ears" Primroses with their velvety texture, heavenly fragrance, odd colors, and leathery leaves are excellent rockery and border material. They will take more sun than other types.

**REDS, YELLOWS, BLUES,  
PASTELS, BROWNS,  
LEATHER, LAVENDER**

3 for \$1.50

6 for \$2.90

Dozen \$5.25

### SEEDS

Hand pollinated from selected plants  
\$1.00 packets 6 packets \$5.00

## Juliana Hybrids

Hardiest of all the evergreen Primroses. They creep by stoloniferous roots and form large patches if left to roam.

### Cushion Type

2 to 4 inches

**P. JULIAE**—This is the species, the ancestor of the hybrids, smaller in all its parts with wine colored blooms in profusion.

**WANDA** — Best known hybrid, very vigorous with about the same color bloom as the species.

**SCHNEEKISSEN**—Pure frosty white.

**ROBERTA**—Lavender, sometimes with short stalks.

**GLORIA**—Sparkling burgundy.

Each 75c

Stalked type—4 to 8 inches

**DOROTHY**—Yellow very floriferous.

**KINLOUGH BEAUTY**—From Ireland; old rose lovely.

**LADY GREER**—Old ivory.

**MILLCENT**—Like ruffled apple blossoms.

**PRIMROSE LODGE**—Dark red, vigorous.

Each 75c

## Asiatic Primroses

Herbaceous in late fall, reappearing in spring. Best shipped in spring.

### Candelabra Type

**P. JAPONICA**—Shades of pink and red.

**P. PULVERULENTA**—  
Cerise crimson.

**P. PUL. BARTLEY STRAIN**  
Pink form.

**P. BURMANICA**—Purple;  
yellow eye.

**P. X RED HUGH**—Ver-  
million hybrid.

### Other Asiatics

**P. DENTICULATA**—White, lavender, and red, very early.

**P. SIEBOLDI**—Woodland type creeper, more drought resistant than other Primroses as it goes dormant in summer. Shades of pink and red.

3 for \$1.50

6 for \$2.90

Dozen \$5.25

## Transplant Seedlings

**ACAULIS - POLYANTHUS  
GARDEN AURICULA**

## Culture

Primroses are hardy perennials and will thrive in any soil if given drainage, humus and some protection from the hottest sun. Drainage is the most important. More Primroses die from crown rot, which means poor drainage, than are ever killed by the cold.

Primroses require less sun and more water than most perennials, though well established plantings will take considerable sun. Humus (in the form of peat), dug into the top six inches of soil will keep the plants moist at all times with less watering. Planting on the north or east side of the house, in the shade of large shrubs or under trees will provide shade and cause the bloom to last longer. A shaded rockery is an ideal situation, except for the woodland types and the tall growing candelabras.

If ground is heavy, old horse manure will lighten it and if very heavy such as clay or hard-pan, sharp sand should also be added. Cow manure will bind a light, sandy soil.

Mulch during summer with peat, leaf-mold or spent horse manure, and dress down in spring with cow manure or good compost. Never use chemical fertilizers.

Snow is the best winter protection. If freezing occurs before snow, a gentle spray with the hose will cover the plants with ice and prevent them from drying out.

Divide Polyanthus every two years or when clumps become crowded and the flowers diminish.

## Shipping Instructions

### PLANTS

West of the Rockies . . . . . Postpaid

East of the Rockies (\$15 and over) . . . Postpaid  
*(East of the Rockies—Orders under \$15 . . add 20% for postage)*
